Extra-strong permanent adhesive

✓ Who It Is For

- ✓ Warehouses needing permanent asset tags
- ✓ Food industry for jar label coverage
- ✓ Safety departments for warning labels
- ✓ Logistics for pallet rack labeling
- ✓ Manufacturing for equipment identification

✕ Who It Is Not For

- ✕ Users requiring temporary labels
- ✕ Those needing non-waterproof labels
- ✕ Inkjet printer users only
- ✕ Applications with curved surfaces
- ✕ Labels needing UV resistance

⚖ Trade Offs to Consider

- ● Higher cost than standard labels
- ● Requires laser printer compatibility
- ● No adhesive removal option
- ● Limited size options available
- ● Bulk purchase commitment needed

⇄ How It Compares

- Better than standard labels for durability
- Worse than adhesive labels for removal
- Superior to paper labels for weather resistance
- Less versatile than roll labels for quantity
- Equivalent to other polyester labels for laser use

✓ Choose This If...

- ✓ Need permanent waterproof labels
- ✓ Use laser printers exclusively
- ✓ Require label coverage over existing marks
- ✓ Prioritize durability over cost

✕ Skip This If...

- ✕ Need temporary or removable labels
- ✕ Use inkjet printers only
- ✕ Require UV-resistant labeling
- ✕ Need labels for curved surfaces
