## Who It Is For

---

-  Users needing portable, tearable labels
-  DIY crafters for decorative purposes
-  Travelers requiring compact storage
-  Those needing water-resistant labels

## Who It Is Not For

---

-  Users in high-temperature environments
-  Those needing non-sticky labels
-  Users requiring non-transparent labels

## Trade Offs to Consider

---

-  Less vibrant than glossy alternatives
-  Limited to thermal printers only
-  Requires careful storage to prevent fading

## How It Compares

---

-  Faster than inkjet labels for frequent use
-  More durable than regular paper
-  Better for high-volume printing

## Choose This If...

---

- ✓ Need portability for on-the-go use
- ✓ Require water/oil-resistant labels
- ✓ Want durable, tearable stickers

## Skip This If...

---

- ✗ Need non-transparent labels
- ✗ Require non-sticky material
- ✗ Plan to use in extreme temperatures
