**CONNECTORS**  
USB Type B (male-to-male)

**USAGE**  
Indoor and outdoor environments

**COLOR**  
Black (durable exterior)

**CABLE**  
Round, single strand design

## Who It Is For

---

-  HP Designjet printer users
-  Need reliable outdoor cable connections
-  Require overload protection
-  Use multiple printer models (70, 111, 130nr, etc.)
-  Seek durable black cable
-  Need USB 2.0 compatibility

## Who It Is Not For

---

-  Users with non-HP Designjet printers
-  Require USB 3.0 or faster speeds
-  Prefer wireless printing solutions
-  Need cables with built-in surge protection
-  Use devices without USB Type B ports
-  Prioritize ultra-thin cable designs

## Trade Offs to Consider

---

-  USB 2.0 speed (max 3 Gbps) vs. USB 3.0 (up to 10 Gbps)
-  No wireless connectivity (requires physical USB port)
-  Single strand cable vs. braided or reinforced designs
-  Basic safety features vs. advanced surge protection
-  Black color vs. color-coded cables for identification
-  Standard USB 2.0 compatibility vs. newer interface standards

## How It Compares

---

- USB 3.0 cables offer faster speeds (up to 10 Gbps)
- Wireless options eliminate physical cable needs
- Other cables may lack overload protection
- Premium cables often include reinforced shielding
- Some models offer color-coded connectors
- Advanced cables may include built-in surge protection

### Choose This If...

---

- ✓ Need USB 2.0 compatibility with HP Designjet models
- ✓ Require overload and short circuit protection
- ✓ Seek durable black cable for outdoor use
- ✓ Use multiple listed printer models
- ✓ Prioritize cost-effective wired solution

### Skip This If...

---

- ✗ Need USB 3.0 or faster speeds
- ✗ Require wireless printing capabilities
- ✗ Prefer cables with built-in surge protection
- ✗ Use devices without USB Type B ports
- ✗ Value ultra-thin or color-coded designs
