Who It Is For

-  Users printing PVC ID cards with inkjet printers
-  Those needing a portable card tray for on-the-go use
-  People using L800 or R290 series printers
-  Individuals requiring a durable, lightweight tray
-  Users who prefer CD/DVD printing mode
-  People managing large volumes of card prints

Who It Is Not For

-  Users printing on paper instead of PVC cards
-  Those needing a tray for laser printers
-  People using non-compatible printer models
-  Users requiring dual-sided printing
-  Individuals needing a larger tray size
-  Those looking for a wireless connection

Trade Offs to Consider

-  Limited to single-sided printing only
-  Does not support wireless connectivity
-  Requires manual duplex printing
-  Not suitable for high-speed card production
-  Limited to specific printer models
-  No built-in storage or organization features

Users Say

● POSITIVES

- ✓ Easy to set up and use
- ✓ Durable and lightweight for frequent use
- ✓ Works well with compatible inkjet printers
- ✓ Helps organize card printing workflow

● COMPLAINTS

- ⚠ Not compatible with all printer models
- ⚠ Limited to single-sided printing
- ⚠ Requires careful mode selection for inkjet cards
- ⚠ No additional storage or organization features

How It Compares

- Smaller than standard card trays for paper use
- Not as versatile as laser printer trays
- Limited to inkjet-specific printing modes
- Does not support wireless or network printing
- Less durable than metal trays for heavy use
- Not ideal for high-volume, dual-sided printing

Choose This If...

- ✓ You need a portable tray for inkjet PVC card printing
- ✓ Your printer is compatible with the model
- ✓ You prefer CD/DVD disc printing mode
- ✓ You require a lightweight and durable tray
- ✓ You print a moderate number of cards
- ✓ You need a simple, straightforward tray

Skip This If...

- ✗ You print on paper instead of PVC cards
- ✗ Your printer is not compatible with the model
- ✗ You need dual-sided printing
- ✗ You require a larger tray size
- ✗ You need wireless or network printing
- ✗ You print large volumes of cards
