Who It Is For

- Businesses requiring 30 ppm monochrome printing

- Teams needing mobile device printing without routers

- Offices with limited paper tray space

- Users prioritizing automatic duplex printing

Who It Is Not For

- Users needing color printing capabilities

- High-volume print shops requiring 50 ppm+ speed

- Environments with specialized paper size requirements

- Customers seeking cloud-based print management

Trade Offs to Consider

- Monochrome only compared to color models

- Higher power consumption than compact printers

- Limited paper size options compared to multifunction devices

- Requires separate toner cartridge and drum units

⇄ How It Compares

- Faster than basic laser printers but slower than high-end models

- More versatile than single-function printers but less than multifunction devices

- Better for wireless printing than wired alternatives

- Higher upfront cost than entry-level printers
