## Who It Is For

---

-  Offices using continuous paper applications
-  Multi-part form printing needs
-  Front/back office transaction tasks
-  Legacy system compatibility requirements

## Who It Is Not For

---

-  Users needing color printing capabilities
-  High-speed color document printing
-  Duplex (two-sided) printing tasks
-  Mobile device connectivity requirements

## Trade Offs to Consider

---

-  Slower color printing than laser printers
-  Higher power consumption than inkjets
-  Limited media size to A4 only
-  No wireless or cloud connectivity

## How It Compares

---

- Competes with other dot matrix printers
- Energy-efficient compared to similar models
- Faster print speed than many alternatives
- Less versatile than modern laser printers

## Choose This If...

---

- ✓ Reliable monochrome printing needed
- ✓ Continuous paper applications required
- ✓ Legacy system compatibility needed
- ✓ Energy-efficient operation priority

## Skip This If...

---

- ✗ Color or duplex printing required
- ✗ Wireless connectivity needed
- ✗ High-speed color output needed
- ✗ Mobile device integration required
