## Who It Is For

---

-  Users needing continuous paper printing
-  Businesses with multi-part forms
-  Small offices with limited space
-  Users requiring reliable long-term performance
-  Organizations using legacy systems
-  Users needing fast monochrome printing

## Who It Is Not For

---

-  Users needing color printing
-  Those requiring high-resolution graphics
-  People with limited desk space
-  Users prioritizing energy efficiency
-  Those needing duplex printing
-  Individuals needing network connectivity

## Trade Offs to Consider

---

-  Limited to monochrome output only
-  No duplex printing capability
-  Higher power consumption than laser printers
-  Requires ribbon and paper
-  No built-in networking options
-  Slower than modern inkjet or laser printers

## Users Say

---

### ● POSITIVES

- ✓ Very reliable for high-volume printing
  - ✓ Easy to set up and operate
  - ✓ Good for multi-part form applications
  - ✓ Durable and long-lasting
- 

### ● COMPLAINTS

- ⚠ No color printing options
- ⚠ Higher power use than expected
- ⚠ Limited connectivity options
- ⚠ Requires frequent ribbon replacements

## How It Compares

---

- Slower than laser printers but more reliable
- More compact than older dot matrix models
- Less energy efficient than laser printers
- Better suited for forms than documents
- No color options for branding or visuals
- Requires more maintenance than inkjet printers

## Choose This If...

---

- ✓ You need continuous paper printing
- ✓ You use multi-part forms daily
- ✓ You prioritize reliability over speed
- ✓ You have limited desk space
- ✓ You need a durable, long-lasting printer
- ✓ You work with legacy systems

## ✗ Skip This If...

---

- ✗ You need color printing
- ✗ You require high-resolution output
- ✗ You need network connectivity
- ✗ You want energy-efficient operation
- ✗ You need duplex printing
- ✗ You require modern software compatibility
