## Who It Is For

---

-  Small businesses needing wireless receipts
-  Android users requiring thermal printing
-  POS systems using Bluetooth connectivity
-  Locations without MAC computer access

## Who It Is Not For

---

-  iPhone/iPad users
-  MAC OS users
-  POS systems using Square or Clover
-  Users needing USB connectivity

## Trade Offs to Consider

---

- Limited MAC compatibility
- Requires thermal paper only
- No USB port available
- Setup involves battery preparation

## Users Say

---

### ● POSITIVES

- ✓ Lifetime warranty included
- ✓ Free U-disk with drivers and manual
- ✓ No toner/ink/ribbon needed

### ● COMPLAINTS

- ⚠ MAC incompatibility issues
- ⚠ Complex initial setup process
- ⚠ Limited app support options

## How It Compares

---

- MAC incompatibility vs. universal USB ports
- Thermal printing vs. inkjet durability
- Bluetooth-only vs. wired connectivity
- Setup requirements vs. plug-and-play

## Choose This If...

---

- ✓ Need Android/Windows thermal printing
- ✓ Require wireless Bluetooth connectivity
- ✓ Want no toner/ink/ribbon maintenance
- ✓ Prioritize portability and compact size

## ✗ Skip This If...

---

- ✗ Require MAC OS compatibility
- ✗ Need USB connectivity options
- ✗ Use third-party POS systems
- ✗ Prioritize inkjet printing durability
