## Who It Is For

---

-  Students need it for classroom notes
-  Professionals print client contracts on the go
-  Travelers require lightweight printing
-  Remote workers need wireless connectivity
-  Educators create handouts during lectures
-  Event planners print tickets quickly

## Who It Is Not For

---

-  Users needing high-speed color printing
-  Those without thermal paper supplies
-  Customers requiring large paper sizes
-  People needing duplex printing
-  Users without Bluetooth compatibility
-  Those prioritizing inkjet flexibility

## Trade Offs to Consider

---

-  Better than traditional printers for portability
-  Less than inkjet printers for color output
-  Better than other thermal printers for battery life
-  Less than laser printers for speed
-  More than USB-only printers for wireless use
-  Fewer than multifunction printers for scanning

## How It Compares

---

- Better than traditional printers for portability
- Less than inkjet printers for color output
- Better than other thermal printers for battery life
- Less than laser printers for speed
- More than USB-only printers for wireless use
- Fewer than multifunction printers for scanning

### Choose This If...

---

- ✓ Need portability for on-the-go printing
- ✓ Use thermal paper for cost savings
- ✓ Require wireless connectivity
- ✓ Want lightweight compact design

### Skip This If...

---

- × Need color printing capabilities
- × Require large paper sizes
- × Need duplex printing
- × Prioritize inkjet flexibility
