4 pages per minute at 10mm/s

Who It Is For

-  Users needing portable printing solutions
-  Artists creating tattoo stencils
-  People with limited ink supply
-  Travelers requiring lightweight printer
-  Small business owners needing Bluetooth connectivity

Who It Is Not For

-  Users requiring color printing
-  Those needing small line precision
-  Projects involving large block printing
-  Users without access to thermal paper
-  People needing duplex printing

Trade Offs to Consider

-  Limited to black and white output
-  Slower than laser printers
-  Restricted to A4/letter paper size
-  Requires special thermal paper
-  No built-in ink refill system

How It Compares

- More portable than desktop printers
- Inkless design vs traditional inkjet
- Bluetooth connectivity vs wired options
- Monochrome output vs color printers
- Smaller footprint than industrial models
- Lighter weight for travel use

Choose This If...

- ✓ Need portable, inkless printing
- ✓ Require Bluetooth/USB connectivity
- ✓ Print monochrome documents
- ✓ Travel with lightweight printer
- ✓ Use thermal paper for labels

Skip This If...

- ✗ Need color printing capabilities
- ✗ Require small line precision
- ✗ Plan to print large blocks
- ✗ Need duplex printing
- ✗ Lack access to thermal paper
