## Who It Is For

---

People needing on-the-go  
printing

Students printing class  
materials

Small office workers

Travelers with limited space

Home users requiring  
portability

Educational institutions

## Who It Is Not For

---

Users needing color printing

Those requiring duplex  
printing

High-volume print users

People needing paper tray  
adjustments

Users with limited battery life

## Trade Offs to Consider

---

- Monochrome only, no color options
- Limited battery life for extended use
- No duplex printing capability
- Lower resolution compared to laser printers
- Requires heat-sensitive paper
- No automatic document feeder

## How It Compares

---

- Better than traditional printers for portability
- Less durable than laser printers
- More convenient than desktop models
- Fewer features than multifunction printers

## Choose This If...

---

- ✓ You need a portable printer for travel
- ✓ You want wireless printing without ink
- ✓ You print mostly black-and-white documents
- ✓ You require a lightweight, compact device

## Skip This If...

---

- ✗ You need color printing capabilities
- ✗ You require duplex printing
- ✗ You print large volumes frequently
- ✗ You need advanced paper handling features
