## Who It Is For

---

-  Businesses needing fast label printing
-  Warehouses requiring barcode printing
-  Retailers needing receipt printing
-  Logistics teams needing shipping labels
-  Small offices with label needs
-  Users needing no ink or ribbon

## Who It Is Not For

---

-  Users needing color printing
-  Those requiring duplex printing
-  Users needing large format printing
-  Those needing high-speed color output
-  Users needing remote control
-  Individuals needing mobile printing

## Trade Offs to Consider

---

-  No color printing capability
-  No duplex printing option
-  Limited to direct thermal media
-  Requires label rolls for operation
-  Slower than laser printers
-  No built-in ink or ribbon

## Users Say

---

### ● POSITIVES

- ✓ Fast and reliable for label printing
- ✓ Easy to set up with USB connection
- ✓ No need for ink or ribbon saves costs
- ✓ Good for small to medium operations
- ✓ Clear and consistent print quality
- ✓ Works well with barcode systems

### ● COMPLAINTS

- ⚠ No color printing capability
- ⚠ Label rolls can be expensive
- ⚠ No remote control options
- ⚠ Limited to direct thermal media
- ⚠ No duplex printing option
- ⚠ Not ideal for high-volume color printing

## How It Compares

---

- Faster than inkjet for label printing
- Less expensive than laser printers
- Simpler than color printers
- More reliable than thermal transfer
- Smaller footprint than large printers
- Better for barcode and receipt printing

## Choose This If...

---

- ✓ You need fast, reliable label printing
- ✓ You want no ink or ribbon costs
- ✓ You require barcode or receipt printing
- ✓ You need direct thermal media compatibility
- ✓ You prefer simple setup and operation
- ✓ You want a compact, reliable printer

## Skip This If...

---

- ✗ You need color printing
- ✗ You require duplex printing
- ✗ You need remote control options
- ✗ You want high-speed color output
- ✗ You need large format printing
- ✗ You require mobile printing capabilities
