Who It Is For

- ✓ Small businesses needing fast monochrome printing
- ✓ Offices requiring USB-connected forms printers
- ✓ Users with limited desk space
- ✓ Workflows prioritizing simplicity over features

Who It Is Not For

- ✗ Users needing color printing capabilities
- ✗ Environments requiring network connectivity
- ✗ High-volume print shops
- ✗ Users needing duplex printing

Trade Offs to Consider

- Lower speed than modern laser printers
- Limited connectivity options
- No duplex printing capability
- Discontinued by manufacturer

How It Compares

- Compare with newer USB monochrome printers for faster speeds
- Evaluate against network printers for connectivity options
- Consider alternatives with duplex printing features
- Check for compatible paper sizes and media types

Choose This If...

- ✓ You need USB-only monochrome printing
- ✓ You prioritize simplicity over advanced features
- ✓ You require 600 dpi text clarity
- ✓ You have limited desk space

Skip This If...

- ✗ You need color printing capabilities
- ✗ You require network connectivity
- ✗ You print high-volume jobs
- ✗ You need duplex printing
