## Who It Is For

---

- ✓ Students needing labels for school projects
- ✓ Office workers organizing documents
- ✓ Crafters creating DIY labels
- ✓ Parents making gift tags for kids

## Who It Is Not For

---

- ✗ Users requiring color printing
- ✗ Professionals needing large-format prints
- ✗ Those without Bluetooth-enabled devices
- ✗ People needing continuous paper feed

## Trade Offs to Consider

---

- No ink required for instant printing
- Limited template options compared to desktop models
- Battery life may degrade with frequent use
- Smaller print size restricts label complexity

## Users Say

---

### ● POSITIVES

- ✓ Easy to connect via Bluetooth
- ✓ Perfect for quick label creation
- ✓ Portable enough for travel use

### ● COMPLAINTS

- ⚠ Battery drains quickly with heavy use
- ⚠ Limited paper roll sizes available
- ⚠ No advanced editing features

## How It Compares

---

- Smaller than desktop thermal printers
- Less versatile than color printers
- More convenient than paper tape systems
- Fewer features than premium models

## Choose This If...

---

- ✓ Need portable label printing
- ✓ Want instant, inkless printing
- ✓ Use smartphone for design
- ✓ Print small labels frequently

## Skip This If...

---

- × Require color printing
- × Need large-format labels
- × Want advanced editing tools
- × Need continuous paper feed
