## Who It Is For

---

- ✓ Social media enthusiasts sharing photos
- ✓ Event attendees needing instant prints
- ✓ Users wanting augmented reality photos
- ✓ MacBook users needing wall stickers

## Who It Is Not For

---

- ✗ Users requiring high-speed printing
- ✗ Professionals needing large-format output
- ✗ Those prioritizing desktop printers
- ✗ People with limited Bluetooth range

## Trade Offs to Consider

---

- Slow print speed of 1 ppm
- Limited paper capacity of 10 sheets
- No duplex printing capability
- Requires Bluetooth-enabled devices

## How It Compares

---

- Better than disposable photo printers for AR features
- Less versatile than desktop models for volume
- More convenient than traditional printers for events
- Similar to other portable printers in portability

## Choose This If...

---

- ✓ Need instant photo sharing at events
- ✓ Want augmented reality photo effects
- ✓ Prioritize portability over speed
- ✓ Looking for ink-free sticker prints

## Skip This If...

---

- ✗ Require high-volume printing
- ✗ Need large-format output
- ✗ Prioritize desktop printer features
- ✗ Want faster print speeds
