## Who It Is For

---

- ✓ Home users organizing storage
- ✓ School teachers labeling supplies
- ✓ Office staff creating price tags
- ✓ Parents labeling children's items
- ✓ Small business price tag creators

## Who It Is Not For

---

- ✗ Users requiring color label options
- ✗ Those needing computer connectivity
- ✗ People with Android 14 devices
- ✗ Users needing fast charging support
- ✗ Individuals requiring continuous label tapes

## Trade Offs to Consider

---

- Limited to monochrome printing only
- No support for continuous label tapes
- Requires specific thermal paper
- iOS app compatibility issues
- No built-in charging adapter

## Users Say

---

### ● POSITIVES

- ✓ Easy to use with smartphone app
- ✓ Portable size fits in pocket
- ✓ Clear black text printing
- ✓ Multiple template options available

### ● COMPLAINTS

-  iOS app has printing issues
-  No fast charging support
-  Limited label size options
-  Requires specific paper type

## How It Compares

---

- More portable than traditional label makers
- Bluetooth connectivity vs wired options
- Thermal printing vs inkjet alternatives
- App-based design vs desktop software
- Smaller size than desktop models

## Choose This If...

---

- ✓ Need portable label printing
- ✓ Want smartphone app control
- ✓ Require monochrome labels
- ✓ Looking for compact design

## Skip This If...

---

- ✗ Need color label options
- ✗ Require computer connectivity
- ✗ Want continuous label support
- ✗ Need fast charging capabilities
