### PRINTING TECH

**Inkless thermal printing only**

### FADE RESISTANCE

**10-year archival lifespan with proper storage**

### PAPER WEIGHT

**20lb uncoated thermal paper**

### COMPATIBILITY

**Android/iOS phone and laptop support**

## Who It Is For

- ✓ Users needing portable document printing without ink supplies
- ✓ Travelers requiring on-the-go printing solutions
- ✓ Remote workers with limited office access
- ✓ Small businesses with low-volume printing needs

## Who It Is Not For

- ✗ Users requiring color printing capabilities
- ✗ High-volume document production needs
- ✗ Laser or inkjet printer users
- ✗ Those needing long-term archival without special storage

## Trade Offs to Consider

---

- Thermal paper replacement costs \$0.12 per sheet
- Requires dark, dry storage to maintain print longevity
- Limited to black-and-white printing only
- PC printing requires additional driver installation

## How It Compares

---

- No ink costs vs traditional inkjet/refill systems
- Portable design vs desktop printers
- Paper replacement vs ink cartridge refills
- On-the-go printing vs office-based printing

## Choose This If...

---

- ✓ Need portable, inkless printing solutions
- ✓ Print infrequently with low volume needs
- ✓ Require black-and-white document output
- ✓ Value long-term archival with proper storage

## Skip This If...

---

- ✗ Need color printing capabilities
- ✗ Require high-volume printing
- ✗ Use laser or inkjet printers
- ✗ Need immediate print output without setup
