## Who It Is For

---

-  Small business owners needing barcode labels
-  Home users creating address labels
-  Those requiring stickers and logos
-  Users needing waterproof labels
-  People looking for Bluetooth/USB compatibility
-  Users wanting portable label printing

## Who It Is Not For

---

-  Those needing color printing capabilities
-  Users requiring ink refills or toner
-  People needing labels larger than 3 inches
-  Users without Bluetooth/USB access
-  Those wanting instant label printing without apps
-  Users needing non-waterproof labels

## Trade Offs to Consider

---

-  Limited to thermal paper only
-  Requires app for editing labels
-  No ink refills needed
-  Battery life depends on usage
-  Portability may limit features
-  Compatibility with non-USB/Bluetooth devices

## Users Say

---

### ● POSITIVES

- ✓ Easy to use with free templates
- ✓ Waterproof labels are practical
- ✓ Bluetooth connection is reliable

---

### ● COMPLAINTS

- ⚠ Limited label size options
- ⚠ App interface could be simpler
- ⚠ No built-in power bank

## How It Compares

---

- Better than inkjet printers for labels
- More portable than desktop printers
- Less versatile than laser printers
- Easier to use than manual label makers
- Better for frequent small label printing
- Less suitable for large-volume printing

## Choose This If...

---

- ✓ Need barcode labels for small business
- ✓ Want waterproof, oil-proof labels
- ✓ Prefers Bluetooth/USB connectivity
- ✓ Looking for portable label printing
- ✓ Need app-based label customization
- ✓ Require thermal paper printing

## Skip This If...

---

- × Need color printing capabilities
- × Require ink refills or toner
- × Need labels larger than 3 inches
- × Don't have Bluetooth/USB access
- × Want instant label printing without apps
- × Need non-waterproof labels
