WEIGHT

0.94 pounds (1.95 pounds with accessories)

BATTERY

2400mAh for 300DPI prints

PRINT SPEED

4 pages per minute monochrome

INKLESS TECH

Thermal printing eliminates ink cartridges

PORTABILITY

10.35" x 2.24" x 1.24" compact design

Who It Is For

-  Users needing quiet printing in shared spaces
-  Travelers requiring lightweight portable printing
-  Students needing on-the-go document printing
-  Professionals with limited desk space
-  Event organizers printing tickets/labels
-  Remote workers requiring wireless connectivity

Who It Is Not For

-  Users needing color printing capabilities
-  Those requiring high-speed printing
-  People in noisy environments
-  Users with limited USB-C port availability
-  Individuals needing dual-sided printing
-  Those prioritizing ink refill convenience

Trade Offs to Consider

-  Quieter than most portable printers but slower than desktop models
-  Inkless design reduces maintenance but limits print longevity
-  Compact size sacrifices some control panel features
-  Wireless connectivity requires stable networks
-  Monochrome output lacks color versatility
-  Battery life shorter than desktop printers

How It Compares

- Quieter than most portable thermal printers
- Smaller than desktop thermal printers
- More portable than inkjet alternatives
- Less versatile than multifunction printers
- Fewer connectivity options than laser printers
- Higher cost than basic thermal printers

Choose This If...

- ✓ You need quiet, portable printing
- ✓ You prioritize inkless operation
- ✓ You require wireless connectivity
- ✓ You need compact travel-friendly design

Skip This If...

- ✗ You need color printing capabilities
- ✗ You require high-speed printing
- ✗ You have limited USB-C ports
- ✗ You need dual-sided printing
