## Who It Is For

---

-  Home users printing photos from phones
-  People wanting AR video features
-  Users looking for a compact printer
-  Gift seekers with a unique desktop printer
-  Those needing instant photo prints
-  Users who value app-based controls

## Who It Is Not For

---

-  Users needing high-volume printing
-  Those without iOS or Android devices
-  People requiring specialized paper types
-  Individuals needing faster print speeds
-  Users prioritizing scanner functionality

## Trade Offs to Consider

---

-  Limited to 4x6" photo paper only
-  Print speed may vary with app usage
-  No built-in scanner for documents
-  Requires app for full functionality
-  Smaller print area compared to larger printers

## How It Compares

---

- Smaller than desktop photo printers
- Fewer paper size options
- No built-in scanner
- Requires app for full features
- Slower than dedicated photo printers

## Choose This If...

---

- ✓ Need home photo printing from phones
- ✓ Want AR video features
- ✓ Looking for a compact, app-based printer
- ✓ Seek a unique gift option

## Skip This If...

---

- ✗ Require high-volume printing
- ✗ Need a built-in scanner
- ✗ Prioritize faster print speeds
- ✗ Want more paper size options
